

Kellton Tech MuleSoft Practice at a Glance

As a Select MuleSoft Partner, Kellton Tech offers a full suite of services to ensure your digital integration success. The expertise and knowledge gleaned from over 60 successful integration projects, ranging from implementations and upgrades to migrations have helped our clients reduce risks and accelerate adoption across the entire enterprise.

We have dedicated MuleSoft labs, MuleSoft Center of Excellence (CoE), and a team consisting of 35+ highly-skilled consultants, with more than 50 MuleSoft certifications and a broad set of technical experiences beyond MuleSoft ESB, including:

 <p>Multi-platform Integrations</p>	 <p>Enterprise Architecture</p>	 <p>Project Management</p>
 <p>API/Service Oriented Architecture (SOA)</p>	 <p>Business Process Management</p>	 <p>Other Key Components of the Business Architecture</p>

With delivery teams based in the United States and India, we offer multiple engagement models to fit your technical needs and budget requirements.

Over 50 Certifications

 <p>MuleSoft Certified Architect Solution Design</p>	<p>SPECIALIST</p>	 <p>MuleSoft Certified Developer Integration</p>	<p>SPECIALIST</p>	 <p>MuleSoft Certified Developer Connector</p>	<p>SPECIALIST</p>
 <p>MuleSoft Certified Developer API Design</p>	<p>ASSOCIATE</p>	 <p>MuleSoft Certified Developer Integration & API</p>	<p>ASSOCIATE</p>		

Our MuleSoft Implementation Strategy

We provide a baseline blueprint and define the path that will ensure the achievement of defined business goals.

Architecture Services

We help establish effective solution architectures to minimize costs, increase ROI, and improve the solution quality, repeatability, consistency, usability, and adoption across projects.

Implementation Services

Our experts address the full lifecycle of a project from initial business requirements to the establishment of an architectural blueprint that will facilitate effective management and deliver maximum ROI.

Operational Services

By providing the right resource, at the right time, to support your business initiatives, we ensure that you are optimized for success.

Benefits of the Kellton Tech Approach

**Reduced
Implementation
Time**

**Ensured Risk
Mitigation**

**Guaranteed
First-time
Success**

**Increased
ROI**

Reduced Implementation Time

Our 20 years of digital integration expertise combined with our MuleSoft technical knowledge ensure rapid, seamless MuleSoft implementation. Our team of experts will mentor your team, providing guidance and support to shorten the ramp-up time and increase productivity while delivering complete knowledge transfer, including detailed documentation, test cases, and a MuleSoft configuration.

Ensured Risk Mitigation

Our MuleSoft experts leverage the knowledge and experience to help mitigate costs, identify and resolve possible roadblocks, and ensure project success.

Guaranteed First-time Success

Your project success is critical, and we help ensure that your team is fully enabled to drive success by:

- Helping you get your architecture and solutions right the first time
- Ensuring that your implementation is driven by business requirements rather than technical constraints
- Optimizing your architecture for technical requirements such as performance, security, redundancy, error-handling, and quality of service
- Creating reusable assets
- Enabling your LoBs (Lines of Business) to self-serve and deliver projects using the C4E (Center for Enablement) delivery model

Increased ROI

Leverage Kellton Tech's combined experience and best practices to accelerate business gains from your MuleSoft implementation while shortening project cycles and decreasing implementation times of future projects.
